Active Learning in the Flipped Classroom

April 18, 2018 - Kelly Alumni Center - Cox C - 7:30 AM

Dr. Virginia Watson, M.D.

TCU and UNTHSC School of Medicine

Dr. Clark Jones, Ph.D.

TCU Department of Biology

This Grand Rounds session is designed to review the concept of a flipped classroom and to engage audience members to participate in a flipped classroom environment. The experience aims to encourage group discussion around the benefits of flipped classroom design and to provide an opportunity to apply these techniques in the classroom setting. Medical history in Texas will be the subject matter explored throughout the lecture and active learning sessions of the presentation.

Why Simulation? Because "To Err is Human"!

Simulation Modalities Workshop - April 26 - 5:30 PM

TCU Rees-Jones RJH-113

Simulation modalities offer innovative educational approaches to support trainee and patient safety. This is paramount as medical errors are the third leading cause of death in the United States.

Twitter Is Trending in Academic Medicine

LUNCH & LEARN
faculty development to go

Zoom Video Conferencing Lunch & Learn

April 26

Twitter offers a means for educators, clinicians, and researchers to communicate and stay connected with each other in real time through brief 140-character messages. Instead of waiting to discuss new research in-person with a handful of colleagues or at a conference, academic medicine professionals can reach more people in more places through social media. TAME (US version)

Aimed at educators from wide-ranging backgrounds and with varying levels of experience, the *Teaching and Assessment for Medical Educators (TAME)* program is designed to enhance the quality of faculty professional development within clinical education. It intends to help those with teaching responsibilities to become more proficient in tailoring their teaching according to learner needs and diverse educational settings; in developing clinical reasoning skills; in involving patients in the learning process; in designing appropriate assessments; in delivering and receiving feedback; and in addressing potential challenges. Ultimately, it aims to help educators ensure that the clinicians of tomorrow are fit to practice.
