## Resource of the Month: [Zoom for Online Teaching](#)

This month's Resource of the Month focuses on an online video chat platform we're all becoming best friends with: Zoom. While we have been using Zoom for a variety of communications, one major challenge from moving from in-person teaching to online teaching is learning how to maximize Zoom features for the classroom. Whether you're a seasoned Zoom user or just now starting, the Zoom for Online Teaching guide is a quick and easy refresher on best practices on using some of Zoom's most popular features including screen sharing, the chat feature, and break out rooms. You will also find a list of ways to mitigate common Zoom troubleshooting such as audio and internet issues. Like all technologies, Zoom is constantly evolving to meet the needs of its

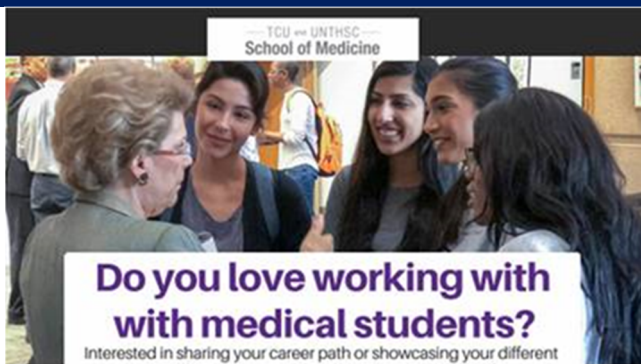

users and they have recently published a blog post that highlights [four new Zoom features](#) educators to use to enhance virtual teaching and learning.

Still not quite getting the hang of Zoom or have lingering questions? We're here to help! E-mail [MDFacultyDev@tcu.edu](mailto:MDFacultyDev@tcu.edu) and we will schedule a meeting with you to address any questions.

## SOM Career and Professional Development Team is seeking Physician Mentors!

The Career and Professional Development team within the Office of Student Affairs is looking to recruit board certified physicians to mentor/advise our medical students about their specific specialty.

The SOM **Career and Professional Development** team is recruiting board-certified physicians to share their career experiences with students. There are four different ways this can be accomplished: Lunch and Learn Speaker, Career Advisor, Mentor, and/or Whole Person Doctor Series. If interested, please reach out to the Career and Professional Development team at [MDCareer@tcu.edu](mailto:MDCareer@tcu.edu)

Please click [here](#) for the full flyer.

## Clinical Preceptor Corner

Welcome to the LIC and new Clinical Preceptor Corner!

I bet you are wondering... What did I sign up for? What is an LIC and what does it stand for? What does Phase 2 mean? How does a Longitudinal Integrated Clerkship compare to a "traditional 3<sup>rd</sup> year clerkship"? **We are so thankful that you have signed up to join us and we have answers for you!** Please click on the link above to read a brief introduction to the LIC and next steps as you continue to work with students and the LIC Clerkship Team.

There are other resources on the [Faculty Development website](#) under "Clinical Teaching Faculty" that are available to you. As always, you are welcome to e-mail the LIC Clerkship team directly with any questions or concerns at [MDClerkship@tcu](mailto:MDClerkship@tcu).

## November Grand Rounds

Facilitated by Conrad Tucker, Ph.D.

Arthur Hamerschlag Career Development Professor of Mechanical Engineering and Machine Learning  
Carnegie Mellon University

**November 17, 2020**

**7:30am – 8:30am**

**Via Zoom**

**No RSVP**

In this 60-minutes session, Dr. Tucker will present recent advancements in Artificial Intelligence (AI) algorithms that enable them to generate hyper-realistic data. Dr. Tucker will discuss the potential implications in STEM education and the advancement of the National Academy of Engineering Grand Challenges of Advancing Personalized Learning. For example AI-generated 3D data could potentially help reduce the barriers to content creation for Virtual and Augmented Reality applications. AI-generated 2D data such as images/videos, could help personalize STEM contexts and increase students' understanding of complex STEM concepts. Attendees will also learn about the future transformations in STEM education and the workforce, as a result of AI integration and advancements.

Zoom link will be forthcoming. Please look for the Outlook invitation soon.
