## Celebrating [Women's History Month](#)

March is right around the corner and with it comes a cause for celebration: Women's History Month. Women's History Month is a national celebration of the contributions and achievements women have made throughout American history in a variety of fields. ## Resource of the Month

Did you know that TCU is an institutional member of the National Center for Faculty Development and Diversity (NCFDD)? One of our favorite national hubs for faculty development is NCFDD, which is an independent professional development, training, and mentoring community for faculty members, postdocs, and graduate

students. An institutional member, faculty members and academic professionals from all ranks can enroll in a [free sub-account membership](#). Members receive a weekly motivational email (the Monday Motivator) and access to the full NCFDD Core Curriculum, guest expert webinars, intensive multi-week courses facilitated by national experts, a private discussion forum, monthly writing challenges, and the opportunity to connect with a writing accountability partner.
