

## SCHOOL of MEDICINE

### FACT SHEET

## New home for the TCU School of Medicine

**Where:** *The new TCU School of Medicine campus is located on Rosedale and Henderson in the Near Southside area of Fort Worth.*

**Size of campus:** *The campus is 5.3 acres.*

**Size of building:** *We are still in the planning stages, but estimate it will be about 100,000 square feet and four stories.*

**Construction to begin:** *Summer of 2022*

**Construction completion:** *2024*

**Architect:** *There are two architect groups, CO Architects who have designed many medical education buildings around the country; and Hoefer Welker, a local firm with health care and education experience.*

**Builder:** *Linbeck Group*

**Why the Near Southside:** *The Near Southside is home to many of our major clinical partners and the greatest concentration of health care entities. This is the perfect location for the new medical school and is in walking distance to many of our clinical partners.*

**Why now?:** *We always knew that the School of Medicine would need a new home. The current space for the School of Medicine was temporary and had initially been designed as research space for UNT Health Science Center.*
