REPLAY

August 2022
Grand Rounds
Imagining Innovation:
Creativity and
Medical Education

Tuesday,
August 16, 2022
7:30 AM
Held via Zoom

Join us virtually for our August 2022 Grand Rounds featuring Dr. Vineeth John. Dr. John will be speaking on how we can apply creativity to medical education. We will discuss a working definition of creativity, how creativity relates to the field of neuroscience, and ways to facilitate creative moments in our field.

Facilitated by
Vineeth John,
MD, MBA
Professor and Vice Chair
for Education, Department
of Psychiatry and
Behavioral Sciences at the
McGovern Medical School
at UTHealth Houston

TCU SCHOOL of
MEDICINE

 For more information, please email MDFacultyDev@tcu.edu.

August 2022 Grand Rounds **Imagining Innovation: Creativity in Medical Education**

*Facilitated by Vineeth John, MD,
MBA*

This month's replay features our August 2022 Grand Rounds facilitated by Vineeth John, MD, MBA. Dr. John, professor and Vice Chair for Education at the McGovern Medical School at UTHealth Houston, expounds upon the importance of incorporating creativity into medical education to problem solve, innovate, and further our impact as scholars.

RESOURCE CORNER

School of Medicine Resources to Support Faculty Research and Scholarship Scientific Review Board

The School of Medicine is committed to growing and developing excellence in research and scholarship across all missions of the School of Medicine. To support faculty in the development of excellent and attainable research and funding proposals the School of Medicine Scientific Review Board (SRB) was established to ensure that all faculty proposals receive valuable review and mentoring from faculty within the School of Medicine.

If you have a research proposal that will require TCU IRB review or result in a grant proposal, please ensure that your proposal has been approved by the SOM SRB prior to submission to the TCU IRB or to the funding agency. SRB mentors are committed to fostering scholarly excellence and are committed to providing you with valuable feedback to ensure success of your project and in a timely fashion.

The SRB consists of faculty with expertise in educational research; translational research; and quantitative, qualitative and mixed methods study design. It should also be noted that SPT projects are vetted inside of that unit and does not funnel through the SRB. To learn more about the SRB review process and access the SRB submission, click the button below. More information about the SRB will be located under the "Educational Scholarship and Research Community of Practice" heading.
